## UK Prime Minister thanks MAST exhibitor for crisis support

Just a couple of weeks ago, MAST 2007 exhibitor HTI received a personal letter of gratitude from Gordon Brown on behalf of the British people, and a commendation from the chief of Gloucestershire Fire Brigade for their support during the dramatic floods seen this year the UK.

HTI provided support with both hovercraft and volunteers to assist rescue operations during this significant crisis.

MAST 2007 visitors can see the hardware used for themselves, on both the HTI stand (F6) and on static display(s) in the Ground Floor halls.

## Electronavale secures Indian Navy contract

Electronavale has signed a contract with the Indian Navy and will provide static converters for U209 class submarines.

These converters supply an on board electrical network from the battery energy. This contract should provide good opportunities to Electronavale, as there are 57 U209 class submarines in the world.

MAST 2007 visitors will be able to see the company's new ALECTIS range of products (variable speed drives controlling synchronous and asynchronous motors) on [Electronavale's trade-show stand \(G52/54\)](#).
